

Finalised Priority Assessment List for the National Heritage List for 2018-19

Name of Place	Description	Assessment Completion Date	Main Classification	Reasons for Inclusion
Parkes Observatory	Observatory is entirety of Lot number 1/DP445477, Parkes Shire Council, NSW.	30/06/2022	Historic	The Parkes Observatory may have National Heritage value as a place which tells the story of Australia's scientific and technological advancement in the second half of the 20th century. In particular, the Observatory demonstrates Australia's role in the Space Race including the Apollo 11 moon landing, playing a key role in the television broadcast of the moon landing to the world, and Australia's international leadership in the field of astronomy.
Yalangbara	Approximately 19,335ha, Bawaka Road to Port Bradshaw, 22km south of Yirrkala, NT.	30/06/2022	Indigenous	Yalangbara may have National Heritage values due to the: Yalangbara sand dunes and the Djang'kawu (Dhuwa moiety foundation story) including in the history and iconography of the Aboriginal land rights movement (Gove case 1963); the importance of the Macassan sites on Wapilina Island in the Yalangbara Peninsula; and the Carpets Case (1993) to protect the intellectual property rights of Aboriginal artists rights from the unauthorised reproduction of traditional Aboriginal designs.
